

## Declaration of conformity

Hereby declared that the lift controller is developed, designed and manufactured in accordance to following directives:

Elevator 2014/33 EU, Swedish standard **EN81-20** and **EN81-50**  
Low voltage 2014/35/EU  
EMC 2014/30/EU

The followig harmonized standards are in use:

### EN 12015

- Electromagnetic compability-product family EN 12015:2014  
Standard for lifts-Emission
- Conducted disturbance EN 12015:2014
- Radiated disturbance EN 12015:2014
- Harmonics EN 61000-3-2:2014

### EN 12016

- Electromagnetic compability-product family EN 12016:2013  
Standard for lift-Immunity
- Electrostatic discharge (ESD) EN 61000-4-2:2009
- Radio frequency electromagnetic field EN 61000-4-3:2006  
-A1:2008-A2:2010
- Fast transients EN 61000-4-4:2012
- Surges EN 61000-4-5:2014
- Induced radiofrequency field EN 61000-4-6:2014
- Voltage dips and interruptions EN 61000-4-11:2004

The compliance with the directives depends on the correct installation, the instruction manual has to be followed.
